EXPERIENCE

Technical Co-Founder & CTO — Zariya AI (Oddmind Innovations)

Aug 2024 – Present · Remote, India

- Lead technical architecture, system design, and engineering decisions across multiple 0-to-1 products.
- Architected an AI interview platform supporting 70 concurrent real-time voice sessions across STT, LLM, TTS, WebRTC, and an asynchronous Go evaluation worker.
- Co-architect Zariya Recruit across call screening, resume parsing, ATS, scheduling, and the end-to-end hiring pipeline.
- Own 80% of AWS infrastructure and technical operations (SQS, EC2, S3, ECS Fargate, ASG); reset architectural foundations when patching was no longer sufficient.

Software Development Engineer — Optmyzr

2022 – Present (Intern 2021 – 2022)

- Built AI campaign creation from scratch and own it end-to-end as the most recent major project.
- Created portfolio-level alerts and expanded portfolio support across Portfolio Dashboard, All Account Dashboard, Audits, Alerts, and related workflows.
- Maintain Campaign Automator and Google Ads Scripts through feature work, customer queries, and production support.
- Develop React/TypeScript reporting surfaces and C# (.NET) services for campaign optimization, budget management, and data pipelines on an award-winning PPC platform used by thousands of advertisers.

Project Tester (Freelance) — JetBrains Hyperskill

2022 – 2023

- Tested Java and Go educational projects for correctness, structure, and learning flow; feedback shaped released content.
